

Voronin Ivan Vasilievich

My great-grandfather was born in the village Zimenki, Shuysky region in 1919. He was called to the military service on the 5th of April, 1939.

Ivan Vasilievich travelled the arduous roads of war and fought against fascism with other Russian soldiers.

My great-grandfather was injured twice during the war. We can read about it in the award documents that we found on the site

Pamyat – naroda.ru. A light wound he got on the 10th of April in 1942, and a more serious wound he got on the 20th of July in 1944.

In the award materials we can also read that my great-grandfather got some war medals such as The Order of the Red Star and The Order of the Patriotic War of the Second Class.

Our family has got a very interesting and very important for us document. It is Diploma for the Capture of Berlin. It means that our great-grandfather Voronin Ivan Vasilievich stormed the Reichstag.

1941-1945

I am proud I am the great-granddaughter of the real hero. We love him very much, we are proud of Ivan Vasilievich. Every year my family takes part in the Russian March of the Immortal Regiment on the 9th of May. The Victory Day is one of our favourite holidays.
